

Volta – Winds of Change

As the brisk winds of autumn begin to move over Volta, messengers bear word of a gathering in Ostburg, Anym. The people of Ostburg rejoice in the news, and ready themselves to receive the visitors.

The forces of the false Baron Dalton have been less focused since Dalton's weapon, Discord, was destroyed. While they still maintain a presence in Anym, they have slowed in their assaults and actions, and Anym seems poised on the edge of change, on the edge of victory.

Ostburg has seen some trouble since the announcement of the gathering, as if to make up for their miraculous immunity to the Plague that ravaged the land in 606. Golems of unknown origin, golems of stone and obsidian, of diamond and iron, have started menacing the lands around Ostburg, driving the populace to take shelter indoors.

Goblinoid attacks are on the rise, directed by the hand of Kron and his vile sons. The men and women of the Rose Guard, Anym's staunch defenders, ready the information they have spent their lives gathering in the hopes of assisting their Baroness in ending Kron's threat.

Golems and Undead creep about. Vile Goblinoid Warbands threaten the land. The seasons change, and change comes to Volta.
